

## Care Instructions -

1. Ensure guy ropes are out at all times during use
2. Never pack your tent away wet. If you must take your tent down when wet, ensure that it is dried completely as soon as possible to prevent mildew forming
3. If mildew does form on your tent, wash off with warm water and a soft brush to prevent further growth, do not use soap or detergents
4. Do not use an open flame inside your tent. The fabric has been treated with a fire retardant but is in no way fire proof
5. Clean all pegs and poles before storing
6. This tent is not designed to withstand storm conditions. During strong winds, it is recommended that the tent be taken down
7. Do not leave your tent pitched unnecessarily for extended periods of time, UV light damages the fly and will shorten the life of your tent

## Condensation -

It is important that lower vents are opened at all times to reduce the risk of condensation. During humid or damp conditions, it is recommended that inner door covers are opened to expose the mesh layer to allow additional airflow throughout your tent.

Do not use foam swabs or non bonded mats directly on the tent floor. This will cause condensation between the mat and floor and if not dried out can lead to mildew foaming.

## 3 Year Tent Guarantee -

*Please take time to read about the protections we offer you*

All our tents come with a guarantee designed to protect you as our valued customer. Flow Imports Ltd, the makers of Zempire Camping Equipment tents, will repair or replace this tent, at their discretion should it fail due to faulty materials or manufacture for a period of 3 years from the date of sale.

The Guarantee is subject to the following conditions:

1. The Guarantee only applies to an original purchaser who purchased this tent from an approved retail outlet
2. The Guarantee does not apply if the tent has been used for anything other than reasonable personal camping use. Commercial use (e.g. rental) or continuous use as a residence are expressly excluded
3. Damage due to normal wear and tear, accident, acts of God, negligence (other than by Flow Imports Ltd), failure by the purchaser to ensure instructions for setting up and care are observed, deterioration due to abnormal exposure to ultraviolet light, insect or mildew attack, or any other cause reasonably beyond the control of Flow Imports Ltd are not covered
4. If redress is sought under the terms of this Guarantee, then the tent must be returned by the purchaser to the outlet from where it was purchased within the Guarantee period, in a clean, dry state and with proof of purchase
5. All transport costs and any other indirect costs are excluded from the Guarantee.
6. Flow Imports Ltd reserves the right to make a reasonable charge for repairs which it determines are not within the scope of the Guarantee
7. The Guarantee does not limit, modify or exclude any rights under any law if doing so would contravene that law or make any part of this Guarantee invalid. However, Flow Imports Ltd:  
**a)** excludes (to the extent permitted by applicable law) all conditions and warranties that might otherwise be implied; and  
**b)** limits its liability for breach of any such condition or Guarantee that it cannot exclude together with its liability under the Guarantee, to repairing or replacing the Goods or paying the cost of having the Goods repaired or replaced (at Flow Imports' option).

This tent has been made with meticulous care and attention to detail. Providing it's properly looked after and correctly stored, it will help you enjoy all that nature has to offer for years to come.

**INSTRUCTIONS**

**1.** Clear your site making sure there are no sharp objects. Try to get a site that is as flat as possible. Stretch out the inner tent.

**2.** Assemble the three pole sections. Ensure the pole does not snap together. It is important that the poles are fully inserted into the ferrules. If the ferrules do not connect together correctly they can cause damage when tensioned.

**3.** Insert the pole ends of the two longer **GREY** poles into the eyelets in the **GREY** webbing found at each corner of the inner.

**4.** Connect the inner to the frame by connecting the c-clips that run along the main cross seams of the inner tent.

**5.** Insert the pole ends of the remaining **RED** pole into the eyelets on the **RED** webbings found at each side of the inner.

**6.** Connect the inner to the frame by connecting the c clips that run along the front seam of the inner tent.

**7.** Peg out the inner tent. Try to tension the floor so that it sits flat. Insert the pegs at a 45° angle.

**8.** Throw the flysheet over the inner and fasten the Velcro ties found on the inside of the fly around the pole lines.

**9.** Connect the fly to the inner by connecting the side release buckles at the end of each pole line.

**10.** Peg out all remaining peg points and guys ropes, pegging at a 45° angle.
